PART C BUSINESS INFORMATION

Item 8: The nature of the issuer's business;

A. Business Development

1. World Mobile Holdings, Inc. (the "Company"), formerly Microscint, Inc., was incorporated in the State of Nevada on May 5, 2006. On November 3, 2009, Microscint Inc., a publicly traded company, which at the time held non-exclusive licenses of certain patents, and was in development of crystal production technologies for gamma ray sensing applications, ultra pure materials, and other high tech products, changed its name to World Mobile Holdings, Inc., by a shareholder approval, and issued shares to a number of shareholders at \$0.001 per share and also appointed new directors as follows: Chuan-Chen (Jason) Hu, Haining (Harry) Zhang, Hsiu-Pin (Sharon) Hsu, Jane Liang, Yong-Jin Lee, Hsiang-Kung Kuo and Jun-Ying (John) Chen. In May 2011, the newly appointed officers are as follows: Chuan-Chen (Jason) Hu as President & CEO & Treasurer, Yuying (Samantha) Jen as Secretary and Executive Vice President, Fu-Shan (Jimmy) Shen as Executive Vice President & CTO, Yuneng (Mike) Ho as Executive Vice President of China Market, Jun-Ying (John) Chen and Tseng-Chien (Daniel) Huang as Board Directors. On December 1, 2009, World Mobile Holdings, Inc. entered into a purchase agreement to acquire Aglow Communication Corp Limited ("Aglow"), a company incorporated in Hong Kong on March 31, 2008, from Arise Technologies Inc. ("ATI"), under the laws of the state of Nevada. Aglow became a wholly owned subsidiary of World Mobile Holdings Inc. on December 1, 2009. On March 22, 2012 the Company received approval from Financial Industry Regulatory Authority "FINRA" to be quoted on the OTC Markets under the symbol "MCSC"

The Company's website is www.worldmobileholdings.com, and our US office is located at 80 Wall Street Suite 212, New York, NY 10005; Our Sales and Marketing office is at 5th Floor, SangDa Technology Building, Science and Technology Road Hi-tech Industrial Park, Nanshan

DST, Shenzhen 518057, China. Our Taiwan Liaison Office is at 13F, No. 207, Tun-Hua North Road, Taipei City 105, Taiwan (R.O.C.).

2. The company's fiscal year end date:

Our fiscal year ends on December 31.

3. Whether the Company has been in bankruptcy, receivership or any similar proceeding:

The company has never been in bankruptcy, receivership or any similar proceeding.

4. Whether the Company has made a material reclassification, merger, consolidation, or purchase or sale of a significant amount of assets not in the ordinary course of business:

On December 1, 2009, World Mobile Holdings, Inc. entered into a purchase agreement to acquire Aglow Communication Corp Limited ("Aglow"), a company incorporated in Hong Kong on March 31, 2008, from Arise Technologies Inc. ("ATI"), under the laws of the state of Nevada. Aglow became a wholly owned subsidiary of World Mobile Holdings Inc. on December 1, 2009. Aglow Communication Corp. Limited, the subsidiary of the company, has established a subsidiary at Shenzhen, China. The official registration of Aglow Communication (Shenzhen) Corp. Limited is approved by February 24, 2012.

5. Has the Company had any default of any terms of any note, loan, lease or other indebtedness or financing arrangement requiring the Company to make payments:

None.

6. Has the Company had any change of control:

World Mobile Holdings, Inc. (the "Company"), formerly Microscint, Inc., was incorporated in the State of Nevada on May 5, 2006. On November 3, 2009, Microscint Inc., a publicly traded company, which at the time held non-exclusive licenses of certain patents, and was in development of crystal production technologies for gamma ray sensing applications, ultra pure materials, and other high tech products, changed its name to World Mobile Holdings, Inc., by a shareholder approval, and issued shares to a number of shareholders at \$0.001 per share and also appointed new directors as follows: Chuan-Chen (Jason) Hu, Haining (Harry) Zhang, Hsiu-Pin (Sharon) Hsu, Jane Liang, Yong-Jin Lee, Hsiang-Kung Kuo and Jun-Ying Chen. In May 2011, Tseng-Chien (Daniel) Huang and Yuying (Samantha) Jen joined the Board and Yong-Jin Lee and Hsiang-Kung Kuo left the Board. Haining (Harry) Zhang and Hsiu-Pin (Sharon) Hsu changed to be Consultant to the Board. 7. Whether the Company has been de-listed by any securities exchange or NASDAQ:

No.

8. Are there any current, past, pending or threatened legal proceedings or administrative actions either by or against the Company that could have a material effect on the Company's business, financial condition or operations:

No.

B. Business of the Issuer

World Mobile Holdings Inc. provides effective processed system, and customized systems integration, such as, integration of Surveillance Systems & Multimedia Signage, integration of Lithium-Iron Battery UPS Systems, and systems for nursing & medical centers.

- Cooperating with world leading wireless operators:
World Mobile has valuable assets to establish its B to B business model with worldwide major wireless operators to fulfill their needs of 3.5G and 4G / 5G wireless information services in order to satisfy their customers.

- Cooperating with electric power industry, financial enterprises, among others :
WMHI provides various types of systems integration, for instance, integration of Surveillance Systems & Multimedia Signage, integration of Lithium-Iron Battery UPS Systems, and systems for nursing & medical centers.

World Mobile Holdings, Inc. is a US holding company. By acquiring Aglow, we are able to support the production, sales and marketing control over the image transmission and to deal with manufacturers that we outsource to. Aglow could provide field application services if a customer has a technical issue that needs to be solved.

World Mobile is in the business of selling and providing effective processed system, and integrating Image Transmission Devices and Image Receiving Devices in order to meet the needs of 3.5G wireless information services of the world's leading wireless operators and their customers.

1. Please indicate the Company's primary and secondary SIC Codes:

3661

2. If the Company has never conducted operations, is in the development stage or is currently conducting operations:

The Company is currently conducting operations.

3. Whether the Issuer is or has at any time been a "shell company"

The issuer is not nor has it at any time been a shell company.

4. Number of total employees and number of full time employees:

The company currently has 9 full time and five part time employees.

Item 9: The nature of products or services offered;

World Mobile Holdings Inc. provides effective processed system, and customized systems integration, such as, integration of Surveillance Systems & Multimedia Signage, integration of Lithium-Iron Battery UPS Systems, and systems for nursing & medical centers.

- Cooperating with world leading wireless operators:
World Mobile has valuable assets to establish its B to B business model with worldwide major wireless operators to fulfill their needs of 3.5G and 4G / 5G wireless information services in order to satisfy their customers.
- Cooperating with electric power industry, financial enterprises, among others :
WMHI provides various types of systems integration, for instance, integration of Surveillance Systems & Multimedia Signage, integration of Lithium-Iron Battery UPS Systems, and systems for nursing & medical centers.

The Company's current solutions and applications are:

- Image Transmission: Surveillance System;
Multi-Media Signage System.
- Lithium-Iron Battery UPS System.
- System for nursing & medical center.
- Smart Grid.

1. Surveillance Systems:

2. Multi-Media Signage Systems:

3. Lithium-Iron Battery UPS Systems:

1. When a power outage, UPS is an electrical apparatus that provides emergency power to a load when the power fails. A UPS differs from an emergency power system in that it will provide near-instantaneous protection from input power interruptions, by supplying energy stored in batteries.
2. UPS is not only an emergency power when power outage happens, but also helps enterprises to solve many ailments, such as, **voltage surges, sharp waves, noise, voltage sag, high (low) voltage transients, and other power quality problems** that might affect the normal operation of the apparatus or equipment, or cause some serious damage; therefore, **the UPS will provide a stable power by filter out the problem.**

4. Systems for Nursing and Medical Center:

5. Smart Grid:

New Green Energy

How we develop this market?

The integration of Lithium-Iron Battery UPS System opens up more various applications in green energy market. We have the opportunities to introduce Smart Grid to our customers.

What is Smart Grid?

Smart Grid is an intelligent electrical power grid that gathers, distributes, and acts on information about the behavior of suppliers & consumers in order to improve the efficiency, reliability, and sustainability of electricity services.

What is the advantage of using Smart Grid?

Using the technologies of Smart Grid, its advanced control called power system automation enables precise solutions to specific power disruptions or outages.

The company has been cooperated with Zhenshen local SI (Kingstar IT) to launch Signage Media Player Project and Surveillance System with Gansu Mobile. The Media Player project is divided into three periods within 2 years with total revenue about \$3M. The project has officially started in September 2011. Item 16: Management’s Discussion and Analysis or Plan of Operation;

The markets in which we operate are highly competitive and many of our competitors have significantly greater resources than we do. Many of the Company’s competitors have far greater name recognition and greater financial, technological and marketing resources than our Company. This may allow them to respond more quickly to new or emerging technologies and changes in customer requirements. It may also allow them to devote greater resources to the research, development, promotion, sale and support of their products than the Company.

In addition, the Company also faces competition from a number of smaller manufacturers that have developed similar products. The relatively low barrier to entry into the “no brand” mobile industry permits new competitors to enter the industry easily.

We believe that the Company's continued operations, revenue growth and future profitability will depend on its ability to attract sufficient capital. We have and are currently taking steps to raise sufficient capital to fund our operations which include funding a joint venture with Hunan Telecom and Hunan Unicom.

The company has been cooperated with Zhenshen local SI (Kingstar IT) to launch Signage Media Player Project and Surveillance System with Gansu China Mobile. The Media Player project is divided into three periods within 2 years with total revenue about \$3M. The project has officially started in November 2011. The surveillance system will be launched by Q4 2012, the estimated revenue will be US\$7.7M.

The major market of the company is in China where the policies and social changes made by the Chinese government can be unpredictable. To remain competitive, the Company must continue to enhance and improve the responsiveness, functionality and features of its main products. The Company’s performance is substantially dependent on the performance of our executive officers and key employees and on our ability to retain and motivate the Company’s personnel, especially our Sales and Marketing teams. The Company’s future success also depends on our continuing ability to identify, hire, train and retain other highly qualified sales and managerial personnel.

Attached: Order received 2011 and estimate from 2012 to 2013:

2011 Total Order Amount in USD: \$7M. Estimated to complete all projects by 2012 ◦
